Share Knowledge...It's the ONLY way to achieve Immortality.

Brothers & Sisters: The first line is put there not to take up space but for you to ponder upon before racing through this document. So please return to that line and digest it.

Thank you. It's not just inspiring, you will agree, but it's awesome. Human beings have always tried various means of achieving the almost impossible goal of Immortality. And it's virtually impossible. Except...when you share your knowledge.

So this is not just a request for you to part with your earnings. This is not just a petition, like the thousands out there, pleading, cajoling & begging for your hard-earned dollars. And God is the Only One that knows where your money ends up.

This petition is for sponsoring a programme called *Islamic Documentaries* on Channel 2 (started airing May 2006). It is very educational & informative & covers many areas (Islamic, Scientific, Political, Historical & Social). Please note that we're trying to get as many sponsors as possible. This is because we do not want to burden any one sponsor. Whatever you can afford please join the effort...to be Immortalised.

Can it be done??? The only answer is to repeat the quotation above...

Share Knowledge...It's the ONLY way to achieve Immortality.

Immortality beckons...

.....

PS: The world of television is overrun with weeds & bush (no pun intended). Too many movies that carry an immoral message that corrupts the minds of the young. Too many comedies, soap operas & other such filth. Too many talk-show hosts talking nonsense. Too many parents leaving the TV on for impressionable children to be ruined.

Is it not time that we take some airtime for God's Message? If not...*Immortality threatens*...worse than it is now. Join now to stop the rut...join in the knowledge that this project should last for years.

All income & expenses will be kept to be reviewed. Receipts will be issued. Please bring in the form below to Zamal's Software Co. or contact us via phone or email to pick up your donation.
